## **Curriculum**

### **Our Curriculum**

Our unique curriculum is specially designed to integrate Islam within all the subjects taught, be it Science, Geography, History, General Knowledge, Language or Mathematics. Through this, every student at AIS has Allah in the heart - World in the hand!

### **Islamic Studies**

A dedicated team, under the supervision of Dr. Farhat Hashmi, develops and implements child-appropriate Islamic Studies curriculum. Through moral education our students learn core Islamic values which are loved by Allah ﷻ and were practiced by Prophet Muhammad ﷺ.

## Programs

### Montessori Section

Montessori is offered for the first three years of schooling. With Montessori qualified teachers and access to extensive Montessori material, students benefit from hands-on activities in a specially designed Montessori environment. A remarkably low student to teacher ratio of 7:1 helps give individual attention to each child.

### Primary / Secondary Section

Teachers aim to prepare all-rounded students who are Allah-conscious, critical thinkers, problem-solvers and high achievers with skills to help them excel in professions of their choice insha'Allah. Primary section consists of grades I - V and secondary section includes grades VI-XII. Segregated classes for boys and girls are from grade IV and onwards.

### Hifz Program

An exclusive hifz program is offered on-campus for students who opt to take a break of 2 years from their regular studies for this noble cause. Along with memorization of the complete Holy Qur'an and many duas, students benefit from communication skills development, sports and *tarbiyyah* classes.

## Parents

We love to work with and involve the parents of our students. Beneficial parent support programs are offered in the form of workshops and *Tarbiyyah* sessions which provide valuable knowledge on child psychology and Islamic parenting in addition to supporting parents to reinforce their child's learning at school.

Mothers are offered a ten month on-campus Fahm al-Qur'an certificate course through which they get an understanding of the Qur'an and learn important aspects of Islamic upbringing of children.

## Environment

AIS provides an ideal environment which is based on strengthening one's bond with Allah resulting in stimulating positivity and the desire to learn, grow and succeed.
