AlHuda International School

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

VISION

Qur'an for All; In Every Hand, In Every Heart

MISSION

To develop the academic skills of children, enhance their natural talents, impart authentic religious education and ensure positive character building in order to make them responsible Muslims, contributing citizens and respectful human beings.

CORE VALUES

Sincerity

Respect

Discipline

Integrity

Tolerance

Benevolence

Dedication

Message from the Chairperson

Dear Parents,
السلام عليكم ورحمة الله

Over the past fourteen years, it has been a source of strength and motivation to see AlHuda International School grow and develop into a holistic and well established schooling system. A system, in which the students are nurtured from the very beginning, with a practical understanding of the teachings of the Qur'an and Sunnah along with an emphasis on maintaining their academic excellence. AIS has a unique education model which recognizes and incorporates the important role parents play thus encouraging children to flourish and benefit from the wonderful synergy between the school and home.

Dr. Farhat Hashmi

Message from the Director

Dear Parents,
السلام عليكم ورحمة الله

All praise and thanks are due to Allah ﷻ, the Sustainer of all the worlds. May peace and blessings of Allah ﷻ be upon our beloved Messenger ﷺ. Thank you for your interest in AlHuda International School. The Prophet ﷺ said, "Whomsoever Allah ﷻ intends to do good, He gives him understanding of religion". (Muslim)

Thorough understanding is the harmonious convergence of physical, mental and spiritual abilities. Therefore, at AIS, we have an especially designed environment where students are appreciated to think critically, learn to work independently and the 'Sunnah Way'. Our primary objective at AIS is to ensure a true Islamic environment for our students, which is safe and conducive to their academic learning and overall character development. Alhamdulillah, AIS has well-equipped and spacious classrooms, specialized Qur'an rooms, well-resourced libraries and a welcoming atmosphere. Our faculty and staff are distinguished through their expertise, professionalism and dedication to teaching.

We believe that in order for education to be most effective and beneficial, it requires a joint effort and collaboration between school staff, parents, students and the community. With the help of Allah ﷻ, and the support of parents and community, we aim to make AlHuda International School a trendsetter for quality Islamic education in which learning takes place with confidence; thus creating a path to achieving excellence. Most schools prepare children for life. We strive to prepare them for life and the life hereafter, In sha Allah.

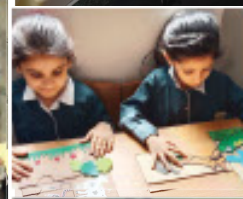

Dr. Atif Iqbal

Introduction

Welcome to AlHuda International School

AlHuda International School (AIS), an aspiration of Dr. Farhat Hashmi and a dream shared by thousands of Muslims within Pakistan and abroad; is one of a kind school that provides excellent academic education based on Islamic values. Founded in September 2010 in Islamabad, with a small team of dynamic, sincere and passionate individuals, AIS has now grown into a well-recognized education system Alhamdulillah.

AIS is an earnest effort to set new standards of education that will produce students of knowledge and virtue, whose hearts are filled with love and trust in Allah and who are skilled verbally, mentally and socially to play their part in the world as practicing Muslims. Central to this mission is AIS's unique Tarbiyah Program, which seamlessly integrates authentic Islamic education into every aspect of school life, fostering growth for students, teachers, and parents alike. This program bridges the gap between home and school environments, supporting the development of well-rounded personalities grounded in Qur'anic and Sunnah teachings.

Aligned with Pakistan's Single National Curriculum (SNC), AIS delivers high-quality, standardised education that balances academic rigour with Islamic values. As an affiliate of the Federal Board, our students are well-prepared for Matric exams, setting them on a path toward future success.

Through this balanced approach, AIS is shaping future leaders who embody the qualities of practicing Muslims, poised to make a positive impact on the world.

EMBARK
on a Path of Excellence

Why Choose AIS

(A Pathway to Excellence)

Holistic Development, Inspired by Islam

At AIS, we focus on the all-round development of the students — intellectually, spiritually, socially, and emotionally— ensuring they are ready to navigate life with confidence, driven by a higher purpose.

Guided by the Qur'an and Sunnah

Our curriculum seamlessly integrates teachings from the Qur'an and Sunnah into every subject. Moral values are woven into stories, role-plays, and interactive activities that leave a meaningful impact. Specialised subjects including Qur'an Recitation & Memorization as well as Qur'an Translation & Tafseer build students' connection with the Holy Book of Allah ﷻ which becomes a lifelong guiding light for them.

World-Class Education with an Islamic Lens

AIS offers a thorough and balanced curriculum aligned with the Federal Board of Pakistan, which is enhanced with custom-developed Islamic resources and enriched with Islamic teachings. Ample opportunities of in-house and national contests and events give students a unique perspective to engage with global challenges while staying true to their values.

Positive, Islamic Learning Environment

From the moment you step inside the campus, you'll experience that the essence of Islam fills every space, creating a welcoming and spiritually uplifting environment. Daily school life is enriched with duas, salaam, congregational salah, and discussions on youth-focused topics like peer pressure, modesty, friendship and taharah. Our vibrant classrooms are safe spaces where students collaborate, learn, and thrive.

Equipping Future Leaders with Character

AIS fosters leadership skills grounded in integrity, compassion, and responsibility, preparing students to be agents of positive change in their communities and beyond. In particular, the 'Leader in Me Program' is a unique initiative that teaches the '7 Habits of Highly Effective Muslim Children'.

Strong School-Home Bond

We believe education is a collaborative effort. Through Tarbiyah sessions, workshops, and regular parent-teacher conferences, we actively involve parents as partners in their child's educational journey, ensuring a unified approach to holistic development of the child.

Enriched Library

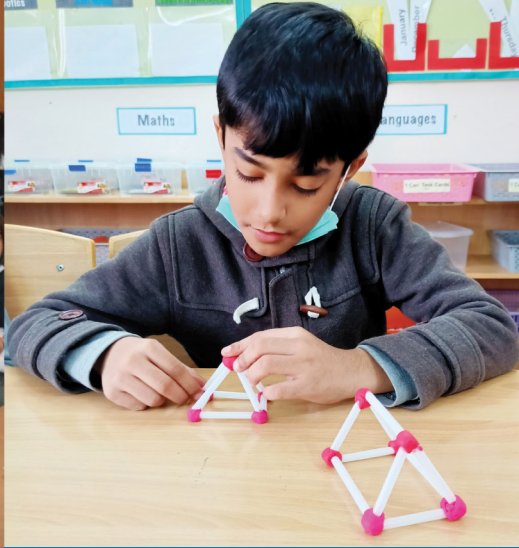

Our campus libraries are vibrant spaces filled with curated resources to fuel students' curiosity and knowledge. English & Urdu Reading Programs conducted on one-on-one bases further enhance the love for reading and promote critical thinking through tailored support.

Montessori Section

AIS provides one of the best Montessori set-ups in Pakistan, successfully using Montessori material for hands-on learning Alhamdulillah. We believe that Montessori learning is learning for life! Therefore, our focus is to link our children with Allah ﷻ in everything they do and to develop a strong foundation of faith for their entire lives.

Harmoniously blended with the Islamic view of a child's Fitrah (nature), the 'Montessori methodology' adopted at AIS is an exceptional system. This methodology is further enhanced by providing the students freedom of choice, respecting their natural development whilst promoting independent learning.

AIS Montessori is a 3 year comprehensive program, which starts at the age of 3 years and may go upto 6+ years. The time from birth till the age of 6 is considered the 'golden period' for a child to learn, understand and grow. We use this golden period to make our students independent in learning by giving them rich experiences to explore as well as steering them towards Islam.

Environment

Providing an ideally prepared environment, AIS Montessori is equipped especially to ensure effective and holistic development of the students. For this purpose, students can access a complete range of high quality Montessori material and have the opportunity to benefit from hands-on activities. The school has an excellent learning environment based on the values of Islam, which inspires, guides and celebrates the students' efforts and achievements. AIS promotes healthy eating habits as well as concepts of sharing and mutual respect. With two teachers in each class, we are able to give individual attention to every child. We have a remarkably low student to teacher ratio of 10:1. Trained teachers inculcate Islamic values into everyday life and teaching, they encourage questions, inspire creativity and strive to make every learner's experience a success.

Approach

We adopt the child-centred approach. The AIS Montessori provides excellent opportunities for fun-filled, activity-based learning so that the students become independent, organized and responsible, helping themselves to take worksheets and materials from the shelves, putting their bags in cubbies, taking and using place-mats at lunch time and always winding up at the end.

Curriculum

The AIS Montessori curriculum is based on established Montessori methods and standards, further enriched by AIS professionals to meet the following objectives:

- Inculcate strong Islamic values in the students.
- Help the students in their intellectual, emotional, physical and social development.
- Enable the students to become independent learners.
- Help each student to recognize and understand his/her role in the world.
- Prepare the students to become Da'ees (preachers) of Islam.

At AIS Montessori, the balanced approach in curriculum designing, focuses not only on the students' physical and mental grooming, but also on their spiritual uplifting. The activity-based methodology emphasizes creativity along with Tarbiyah as the main feature of AIS Montessori. The students begin their day with the remembrance of Allah ﷻ during specially prepared assemblies.

Arabic language

The Arabic language starts right from Junior Montessori, so that the children are able to practice it by the time they reach the higher grades. This is considered a key to unite Muslims all over the world and to understand the Book of Allah in the language it was revealed in. Aqeedah and Ahadith are taught in Arabic to acquaint students with the foundational sources of Islam from an early age. The Montessori students use specially designed Arabic workbooks, developed in-house, which help the children build Arabic vocabulary quickly and practice Arabic letters.

Qur'an Recitation and Memorization

It is essential for every Muslim, to be able to recite the Qur'an in the perfect manner, hence students of Montessori practice Tajweed and memorize daily Duas and Azkar of our Prophet as well as selected Surahs of the Qur'an. These lessons are reinforced with 'Quran Explorer' App.

<https://read.quranexplorer.com/1/1/7/Usmani/Sheikh-Basfar/Hide/Tajweed-ON>

**Building
Strong Foundations
Rooted in Faith.**

English

The students are encouraged to communicate in the English language. The Language Exercises in the Montessori environment develop students' overall language skills. Moreover, the spoken abilities are enhanced through daily practice of phonics, whereas the reading skills are developed through an intense levelled Reading Program. We follow a Synthetic Phonic Program using interactive boards to enhance the listening and reading capability of students. The written expression is polished through a well-structured curriculum focused on appreciating creativity along with improving the hand writing.

Urdu

Urdu language is highly valued at the school and is taught with the same zeal and emphasis as English and Arabic.

Mathematics

Special Montessori material is used to make Mathematics a fun and an exciting subject. It helps to build concrete base of numeracy which would help these students in future to learn and apply complex mathematical concepts to real- life problems.

Islamic Studies

At AIS, Islamic Studies is a subject thoroughly enjoyed by our students. The lessons are planned in line with the Montessori methodology and are based on imparting not just knowledge but practical application of all concepts making it relevant to the child's age and perception. The focus is also on inculcating the love of Allah ﷻ, Prophet Muhammad ﷺ and the Holy Qur'an into the very hearts of our students. We use our own workbooks, developed in-house for Montessori section by the Tarbiyah Department and do our best to instil thorough understanding of Islam.

Leader In Me

The Leader in Me model, implemented from Senior Montessori classes, transforms young minds into confident Muslim leaders through authentic Islamic integration. This “whole-child” approach emphasizes that every student has unique potential and the capacity to lead. With a structured curriculum rooted in Islamic values, students develop habits of happy, effective Muslim children.

Through daily journaling in their LIM books, students reflect on and internalize these impactful habits. Engaging classroom activities reinforce their learning, creating an inspiring environment where character, leadership, and faith come together, nurturing well-rounded individuals aligned with Islamic principles.

Cultural Studies

Culture Studies are an important part of our Montessori curriculum. They broaden students' understanding of the world around them and their place in it. Our students learn this subject through selected topics from Geography, History, Botany, Zoology, Science and Social Studies. This subject is replaced with the subject of Science in Advance Montessori.

2D & 3D Art

Exploring **2D & 3D Art** stimulates creativity and broadens the mind. Painting, cutting and sticking, drawing, making patterns with symmetry and recycling are all fun ways to learn art and craft.

Practical Life

Exercises of Practical Life are vital for our Montessori students. They help them control their movements, become independent and adapt to society. Practical Life Exercises also aid in intellectual and concentration growth, helping students develop an organized way of thinking.

Sensorial Exercises

The Sensorial Exercises prepare the mind for mathematical thinking and encourage early language skills, cognitive growth, fine and gross motor skills, problem-solving skills and social interaction. Sensorial exercises help our students learn how to organize their environment, classify objects and use logic to make sense of the world around them.

Sports

Regular sports activities, combined with free play on our child-friendly play area, are integral to our students' physical fitness and mental well-being. Led by a professional sports teacher, these sessions not only promote physical health but also encourage teamwork, discipline, and resilience among our students.

Assessment

The students' progress is closely monitored by assistant teachers, class teachers, subject teachers, level coordinators and the Section Head. Daily behaviour reports help in the identification of areas of concern, whether it is academic or otherwise and aid in planning to overcome them. Remedial programs are carried out for those students who require special attention in certain academic areas. If required, problems are discussed with parents so that they can also play a positive role in helping their child cope. Report cards prepared on the basis of regular ongoing assessment are sent to the parents at the end of each term.

“We cultivate inner discipline in our students' thoughts, actions, and habits, aiming to shape well-rounded individuals grounded in Islamic values.”

Nasreen Fawad
Branch Head
CBR Campus, Islamabad

A Day at AIS Montessori

Smile & Salam 'Walk the talk' is what the AIS staff believes in, greeting every student, each morning with a smile and greeting of peace - 'Assalam u Alaikum'. This embeds the Sunnah of saying Salam and soon becomes a common practice among our students.

Morning Assembly Providing an energetic start to the day, students gather for the morning assembly where everyone is given the opportunity to participate in order to gain confidence from an early age.

Circle Time A recount of previous learning, moral themes and class rules all take place during circle time. Subsequently, children take a peek into what is planned for the day ahead.

Lunch Time Washing hands, setting the table and saying 'Bismillah' before enjoying favourite snacks is all part of the lunch time. The teachers join their students to teach eating etiquettes; such as using the right hand, sharing and finishing the meal.

Sports An all-time favourite of our students is the sports class. With the guidance of a trained teacher, students learn and excel in various games and exercises, as well as build on teamwork, patience and the passion to succeed.

Material Time

The 'Material time' gives students the opportunity to unleash their potential by working with the Montessori material. Montessori material is especially designed to teach children various skills including better hand-eye coordination, self-discipline, self-correction and focus while enhancing cognitive skills and creativity. These activities lay the foundation for future learning. It is a wonderful time for students to engage in numerous tasks with the freedom to choose from the wide range of material. In AIS, we ensure the availability of sufficient age-appropriate Montessori material to keep all the students involved simultaneously.

Departure Time

The security of our students is extremely important for us and so departure time is exceptionally organised. A pick-up card system is in place, which authorises the card holder only to pick up the student.

After School Facility

Due to varied dismissal times of siblings, staff or even parents who are unable to make it to school on-time to pick up their children due to work hours, an after-school facility is available. This time is made purposeful for the students by engaging them in interesting activities, snacking or even taking a short nap and feeling refreshed before going home.

“Watching children thrive as well-rounded, compassionate individuals is deeply fulfilling. At AIS, I have seen how an environment enriched with Islamic values transforms students, nurturing their character and strengthening their faith.”

Memoona Waseem
Branch Head
Faisalabad Campus

Notable Features

Orientation Day

In order to facilitate parents for the upcoming academic year, an Orientation Day is held to share with them the teaching techniques, rules, regulations and the support required from home.

Discipline in Hubs

Without a doubt, discipline is one of the most important aspects of the school. Students will always be found following their leader whilst walking in straight lines, waiting in a queue and keeping the noise level to a minimum. These traits become life-long valuable habits.

Qur'an Recitation Room

In the dedicated Qur'an Recitation room, students are supported in reciting their lessons aloud, utilizing microphones and sound systems. This setup ensures that each letter is pronounced with clarity, enabling the students' recitations to be distinctly audible and fostering a conducive learning environment for mastering Qur'anic pronunciation. The room is well-equipped with whiteboards, soft boards displaying Tajweed rules, student's floor desks and Surah displays. Furthermore, recitation recordings are played for additional guidance and practice, enhancing the overall learning experience. It is through these lessons that the students develop an innate love and respect for the Holy Qur'an.

Audio/Video Room

A fun and exciting learning experience takes place in the audio- video room where students get their hands on the interactive smart-board. Interactive board sessions, presentations, entertaining learning apps for various subjects and so much more goes on in this room. Additionally, to expose our students to fascinating apps and gadgets, our teachers are equipped with tablets to enhance academic abilities and cognitive skills. Students thrive through these rich learning experiences.

Kitchen Corner Activities

Kitchen Corner encompasses more than just whipping up a recipe; valuable skills such as appropriate use of various instruments, identification of a wide range of ingredients, counting and weighing skills are also involved. Such activities instil social skills, organizational skills and the recognition of healthy and Tayyab food. Children love to clad the chef caps and get on to fun-filled work.

Graduation Ceremony

Held at the end of each academic session for Advance Montessori, the Montessori Graduation ceremony is an exciting milestone for our graduating students. It is a celebration of the completion of their 3 years of Montessori learning. It is indeed a sense of great achievement to watch young graduates clad in graduation caps and gowns, receiving their certificates of accomplishments.

“AIS emphasizes a balanced approach to both religious and worldly pursuits, empowering students to excel in all areas of life while upholding Islamic values. With a supportive and inspiring learning environment, AIS prepares students to become confident, compassionate, and impactful leaders.”

Faryal Salman
Branch Head
Peshawar Campus

Primary Section

Our Primary Section is Alhamdulillah well on its way to attain the vision of the school where students are being trained in a positive environment by passionate and dedicated teachers. Our approach to learning is evolving every day; modern and innovative techniques are being adopted to educate the students. These techniques optimize self-belief, competence and proficiency.

The Primary Section comprises Grades I – IV; boys and girls are segregated from grade IV and onwards.

Key Features

- » Activity-based learning with modern teaching techniques.
- » Teaching languages, sciences and concepts with Islamic integration.
- » Tarbiyah, in and outside the classroom to make the students better Muslims.
- » Providing classroom environment which is embedded with Islamic principles and teachings.
- » Teaching Arabic and Tajweed as regular subjects to make understanding of the Holy Qur'an easier.
- » Following monthly moral themes to incorporate essential Islamic values.
- » Offering Zuhar Salah in congregation on campus.
- » Exclusive opportunities to meet and learn from religious scholars and professionals.
- » Participation and distinctions in national and international competitions such as IKLC, HRCA, IKMC & IBIC.

**Extraordinary
doesn't just
happen**

W E L C O M E

Curriculum

Students are guided to become self-motivated learners, who are strong academically and are able to foster their own ability to think comprehensively and clearly. Our enriching curriculum is streamlined with the Single National Curriculum aimed to align high-quality education while developing 21st Century skills including analytical, critical and creative thinking.

“ AIS provides a rigorous academic curriculum alongside extracurricular activities and community service opportunities, promoting students' intellectual, social, and emotional growth. It is the perfect holistic harmony. ”

Yasmeen Naveed
Branch Head
Clifton Campus, Karachi

Qur'an - Recitation and Memorization*

Qur'an Recitation encompasses teaching Naazrah, utilizing word break-up, blending, and word analysis on a whiteboard with the aid of a mind map. The recitation employs a phonetic reading approach, recognized as one of the most innovative and advanced techniques. Continuous reading skills are cultivated through recordings featuring esteemed Tajweed experts, ensuring a comprehensive and effective learning experience. Additionally, the Tajweed class includes the memorization of a section of the Holy Qur'an, enhancing students' proficiency and connection with the sacred text.

Arabic*

Our Arabic language curriculum is designed to empower students with reading, listening, speaking and writing skills, enabling them to grasp Arabic texts proficiently. The purpose of this subject is to make students able to read and understand the Holy Qur'an in its revealed language. It aims for students to read, identify the grammatical rules and comprehend the Arabic text. Arabic text comprehension is developed through dialogues, Islamic stories and Ahadith which serves as a foundation to understand the basics of Islamic teachings through original sources. Students not only learn the Arabic language but also gain insight into the Qur'an and Hadith directly from their primary sources.

English*

As an English medium school, students are encouraged to communicate fluently and effectively in English at AIS. During the year, all areas of the subject are covered; including reading, writing, listening and speaking effectively in English.

Urdu

As the national language, Urdu is highly valued at the school and is taught with the same zeal and emphasis as English and Arabic.

Mathematics*

Students are taught mathematical concepts which are reinforced through practical activities. The methodology adopted at AIS provides a platform for students to become independent in utilizing their mathematical skills. This approach helps form a strong foundation to build upon in coming academic years.

*Core Subjects

**Cultivating Taqwa,
Igniting Potential!**

Islamic Studies*

The school has a thematic approach to the way Islamic Studies is taught, where a concept is reinforced in all aspects of teaching. Through this process students learn in an engaging manner, which helps increase their knowledge while enriching their faith and thus translating into action.

Leader In Me

The 'Leader in Me' program for Primary Section students introduces the seven habits of effective Muslims, inspired by the teachings of Prophet Muhammad ﷺ and the Sahabah. Through engaging activities such as role-playing to practice kindness, collaborative projects, and creative expression, students cultivate essential values in a supportive environment. Daily journaling encourages reflection on empathy and responsibility, empowering them to grow into compassionate, confident young leaders who embody Islamic principles.

Science

Science is taught in such a way that students are made to realize and appreciate the grandeur of Allah ﷻ and His creation. They are motivated to understand the application of scientific concepts through experiments, diagrams, flow charts, documentaries and science projects. Exhibitions and competitions held by the school are an effective means to further nurture students' scientific inquisitiveness. Students are encouraged to make discoveries, devise formulae and experiment on their own.

Physical Education

Health and fitness is ensured by providing the students training in sports such as Martial Arts, Badminton, Table Tennis, Basketball, Gymnastics, Racing etc. All students partake in weekly physical activities.

General Knowledge

Students develop an understanding of the world through inquiry mediums such as painting, drawing and sketching, based learning about the Universe, Earth, environment and other cultures in General Knowledge, Social Studies and Life Skills. Emphasis is placed upon becoming responsible and active citizens of the world through practical projects and innovative research. Students derive important lessons from the past and benefit from a focused study of Muslim heroes. Students of Grade IV delve deeper into Pakistan Studies exploring Government, Economics, Culture, History & Geography of Social and Civic Sense.

***Core Subjects**

Arts and Crafts

This subject is a way to expand students' imagination, broadening their horizon in being creative and helping them refine their gross and fine motor skills. Students use this time to express their emotions and feelings through various mediums such as painting, drawing and sketching.

Life Skills

Life skills are essential for the overall development of primary students. These skills extend beyond traditional academic subjects and play a crucial role in preparing students for various aspects of life. The purpose of Practical Life Skills is to help students gain control over the coordination of their movements, become independent, and adjust to their society. Therefore, it is crucial to "teach teaching, not correcting" in order to allow the child to be a fully functional member of their own society. Practical Life Skills Exercises also aid in the growth and development of the student's intellect and concentration, which, in turn, helps the child develop an organized way of thinking.

“At AIS, we embrace the transformative concept of Tarbiyyah, a holistic approach to education that nurtures not only academic excellence but also moral integrity, and spiritual growth. By fostering a supportive and inspiring environment, we empower our students to become well-rounded individuals, ready to make a positive impact on the world. ”

Sadaf Malik
Branch Head
Sialkot Campus

Assessment & Grading

The academic progress of the students is systematically monitored by teachers, coordinators and the Section Head through close observation as well as through the assessment of class work, quizzes, tests, oral assessments, projects and examination. Our academic year is divided into two terms, during which students are assessed through ongoing performance evaluations, Grand Tests, and End-Term Tests. The final report provides a comprehensive overview of each student's progress, consolidating results from the entire year to present a clear picture of their academic achievements. This structured approach ensures that every student receives the guidance and support they need to excel.

Secondary Section

The Secondary Section at AIS stands out for its commitment to academic excellence, personal development, and spiritual growth. We offer a curriculum aligned with the Federal Board of Pakistan, adhering to the Single National Curriculum to ensure that our students receive a well-rounded education.

Our focus extends beyond academics to include essential life skills, empowering students to cultivate the right attitudes and skills necessary for their future studies and career paths. The Secondary Section encompasses grades V to VII, with separate facilities for boys and girls, fostering an environment that encourages focused learning and personal growth. We strive to inspire our students to become confident individuals ready to embrace the challenges ahead.

**Strengthening
Mindful Hearts &
Healthy Bodies!**

Key Features

By providing an ideal Islamic environment and through the integration of Islamic teachings with the curriculum, we help our students develop a strong bond with Allah . All our efforts are focused towards making our students responsible Muslims who can play leading role in the progress of the world motivated by Islamic teachings and guidance. Through the lessons on Seerah of Prophet and the history of Sahabah, they get a chance to admire the golden era of Muslims and internalize the efforts needed to bring such changes in our society, even today. Participation in national and international competitions, such as International Qur'an Competitions, IKLC, IKMC, IBIC, HRCA, and others, is a hallmark of our Secondary Section. These opportunities not only enhance their learning experience but also instill confidence and resilience, preparing them for future success.

Shaping future
leaders grounded
in Islamic principles!

Curriculum

We ensure that our students are provided activity- based learning which enhances their level of creativity, confidence and understanding.

Qur'an Translation and Tafseer*

A distinctive feature of AIS is its commitment to connecting students with Allah ﷻ through a profound and comprehensive study of the Qur'an. This endeavor aims to cultivate moral excellence and promote good conduct in personal and family relations. Furthermore, it assists students in understanding and practically implementing the Commands of Allah.

Our subject specialist teachers ensure introspective thought process and encourage the students to become evaluative individuals having more insight into what Allah expects from mankind and the standards He has set for His believing slaves.

Qur'an - Recitation and Memorization*

Nazrah is instructed through techniques such as word break-up, blending, and word analysis on a whiteboard, focusing on technical words. This approach supports students in achieving continuous and independent recitation of the verses. Additionally, we organize annual and inter-campus Qiraat competitions to provide students with a platform to showcase their noble talents and skills. Furthermore, students are exposed to international-level competitions, broadening their horizons and fostering a spirit of excellence.

Leader in Me

The Leader in Me model at our Secondary level empowers students to become compassionate leaders through a focus on unity, integrity, and living a Sunnah way of life. Through engaging discussions, collaborative projects, and community service initiatives, students deepen their understanding of these values while developing essential leadership skills. This holistic approach fosters a strong sense of responsibility and empathy, equipping students to influence their peers positively and contribute meaningfully to society while embodying the principles of our faith.

English*

While teaching English as a language we focus on reading, writing, listening and speaking skills. Students are given experience of developing content for reports, brochures, documentaries , poetry composition, article writing etc. Reading skills are not limited to comprehension alone, through developing these skills, we aim to instil the love of reading and gaining knowledge through books. Our library contains a wide variety of carefully selected age appropriate books.

Urdu

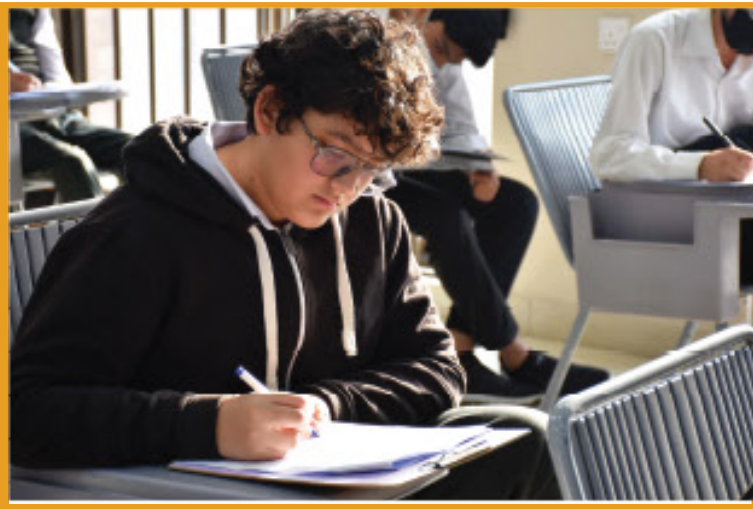

Urdu is taught with an extraordinary zeal and zest through creative activities. Our students participate in speeches & debates, conduct interviews, write reports and compose personifications in Urdu. Students also conduct assembly presentations as well as execute theme of the month through different activities.

Mathematics*

Mathematics is taught with reference to daily problem solving. Our specialist teachers have an insight into the future requirements for higher grades and strive to make the students competent enough to be able to meet higher standards and reach broader horizons . Mathematics is Islamically integrated for its strands with the skills of algebra, geometry and data interpretation in all parts of our syllabus books.

Islamic Studies*

An exclusive department is dedicated to the development of the Islamic Studies Curriculum. Our school has a thematic approach to the way Islamic Studies is taught, where a concept is reinforced in all aspects of teaching . Through this process, students learn in an engaging manner, simultaneously helping to increase their knowledge, while enriching their faith and thus translating into immediate action.

Pakistan Studies

Pakistan Studies aims to enrich students' understanding of Pakistan's history, culture, and geography while fostering a sense of patriotism and civic responsibility. To achieve this, the curriculum integrates two core disciplines: History and Geography.

Taught through a standardized syllabus and supplemented by digital resources, the subject encourages critical thinking and exploration. Students engage in research projects, presenting their findings to deepen their understanding, enhance their confidence, and develop essential academic and interpersonal skills. This approach ensures a well-rounded educational experience that nurtures informed and responsible citizens.

Science

is one of the most significant subjects of our curriculum. Our students enjoy conducting experiments in the science lab and are trained by the subject experts to form hypothesis and reach conclusions. Further, students are given opportunities to display and present a vast range of science projects to open audiences. All their research work is Islamically integrated, thus training our students to not just learn science with a deeper purpose, but to transfer their research as a Da'ee to the rest of the world, benefitting from such opportunities to strike upon intellectual thinking and discovering ways to spread the word of Allah.

At Upper Secondary level, students study Physics , Biology and Chemistry as separate subjects with emphasis on inquiry- based learning to prepare them for external examination.

**Thriving in Faith,
Excelling in
Learning.**

Computer Studies

Computer Studies is catered through the syllabus book for each grade. Our well-equipped computer labs contain all the necessities required for the students to get hands-on experience. Students are trained to use various programs while surfing the internet according to a specifically formulated age-appropriate syllabus.

Physical Education

Health and Fitness is ensured by providing the students training in sports such as Taekwondo, Badminton, Table Tennis, Football, Gymnastics etc. All students partake in weekly physical activities.

“ At AIS, our vision, ‘Qur’an for all, in every hand, in every heart,’ drives our mission to instil in our students a profound connection with the Holy Qur’an. This guiding principle shapes both our curriculum and approach to character-building, empowering students to excel academically while growing spiritually. Our commitment goes beyond academics, shaping students with strong character, integrity, and a sense of responsibility. It’s truly inspiring to see these boys embrace both knowledge and faith, preparing them for lives of purpose and positive impact in society. ”

Dr. Zafar Iqbal
Branch Head
H-11 Campus, Islamabad

Assessment & Grading

The academic progress of students is systematically monitored by teachers, coordinators, and the Section Head through careful observation and continuous assessment methods. This includes evaluations of classwork, quizzes, tests, oral assessments, projects, and examinations. Our grading and assessment system is designed to be transparent, enabling students and parents to easily understand their progress and set future goals.

Students in Grades V - X are evaluated based on their ongoing performance throughout the academic year, culminating in Grand Tests and End Term Tests. The final performance report provides a comprehensive overview of each student's achievements, compiled from their results throughout the year, ensuring a clear and constructive feedback loop for continuous improvement.

Secondary School Certificate

At AIS, we provide a comprehensive Federal Board Matriculation program for grades VIII - X. After the 2nd End of Term Tests in grade VII, students enter the Matriculation stream. Our assessment process includes monthly tests and End of Term Tests designed to reflect the pattern of board examinations.

In addition to a broad and balanced curriculum, we emphasize counseling and character education to nurture well-rounded individuals. Our dedicated and experienced team of teachers is committed to fostering a love of learning, equipping students with the knowledge, skills, and attributes necessary for success in their board exams.

**Nurturing Hearts,

Hifz Program

Presently offered in campuses in Islamabad, Karachi, Peshawar and Sialkot, AlHuda International School provides an exclusive Hifz Program for students who have a passion for memorising the Holy Qur'an. The Hifz program is offered at a minimum age of 9 years, with segregated sections for both boys and girls.

The memorization of Qur'an starts after the admission of students (ages 9 to 11 years) who can recite Nazrah Qur'an fluently, these students discontinue their school for two years and focus on Hifz only.

**Embracing the Qur'an:
Hifz Journey Begins Here**

Key Features

» Focused Learning Environment

Students temporarily redirect their academic focus to engage in this extraordinary Hifz venture.

» Accelerated Completion Timeline

The program is meticulously designed for completion within a concise 2-year timeframe, ensuring efficient progress.

» Dedicated Teaching Support

Experienced and committed teachers provide unparalleled support to guide students through their Hifz journey.

» Optimal Student-to-Teacher Ratio

With a low student-to-teacher ratio of 10:1, personalized attention and guidance are guaranteed for each student.

» Structured Assessment Approach

Regular term-wise tests, conducted after memorizing every 5 paras, evaluate students' progress, fostering a thorough understanding.

» Encouraging Milestone Recognition

A certificate is distributed to new students upon completion of their 1st para, providing early encouragement and acknowledgment of their commitment.

» Recognition Through Certificates

Students receive certificates in special assemblies upon successful completion of each 5-para test, acknowledging their achievements.

» Holistic Development Opportunities

Supplementary classes cover essential areas beyond Hifz, including sports and communication workshops, fostering a well-rounded education.

» Memorization of Various Supplications

Students memorize a diverse range of supplications, enriching their spiritual and cultural knowledge.

» Intensive Tarbiyah Sessions

Specialized sessions instill good character, manners, and ethics in students, enhancing their personal and moral development.

» Recreational Field Trips

Recreational field trips are planned in collaboration with the school, ensuring that Hifz students actively participate in fun and educational outings, adding a dynamic and enjoyable dimension to their overall learning experience.

Celebratory Completion Ceremony

A significant ceremony marks the completion of Hifz, recognizing the dedication and achievement of the Huffaz.

» Annual Hifz Convocation:

Huffaz are honored with certificates and shields in an annual convocation ceremony, celebrating their commitment to memorizing the Holy Qur'an.

» Seamless Academic Transition:

The school provides additional support to assist Huffaz in seamlessly resuming their academic studies post-Hifz completion.

» Continuous Revision for Graduated Huffaz:

Graduated Huffaz from the AIS Hifz program, currently attending AIS, undergo 15-para tests each term, aligning with their regular exams. This continuous revision ensures that their memorization skills are consistently reinforced, maintaining the excellence achieved during the Hifz program.

“The Hifz Program at AIS combines structured policies with a nurturing environment, fostering excellence in memorization of the Holy Qur'an and character building. We value feedback from parents which is key to our continual growth and helping students achieve their full potential.”

**Hafiz Abdul Razzaq
Coordinator
Hifz Program**

Hifz Program Overview

Applications for admissions to the Hifz program are accepted throughout the year and admissions are secured upon seat availability. Applications are submitted at the reception and saved in our database. Parents are contacted as soon as there is seat is available. Admission is secured if child qualifies in the Interview and test.

Being an Islamic institute, ALHuda International School recognizes the importance of memorizing the Holy Qur'an. Thus it facilitates its own students and outsiders to embark on this sanctified journey which will not halt until one reaches the highest ranks of Jannah.

Since its establishment in 2013, the AIS Hifz program has thrived, having certified 200+ Huffaz thus far. The program provides a comprehensive curriculum that includes engaging training for students, with regular Tarbiyah sessions and games as a component of the course. Parents of our students are involved at all steps of the program. They are kept in-line with the progress of their child regularly through Parent Teacher meetings. After completing the memorization of the Book of Allah ﷻ, students take the Wifaaq-ul-Madaris examination before joining back their regular school.

AIS Hifz Program aims to rejuvenate the young hearts of Muslim Ummah with the love of Qur'an and it steers clear of all kind of corporal punishments.

AIS Library

The AIS Library provides a welcoming environment for the entire school community, where the needs of students and staff are catered. All the members of the school are encouraged to visit the library and explore their interests.

Library time at AIS is an informative, interesting, and most of all an enjoyable time for everyone. The library is an integral part of the school; it is an attractive place for students and staff to gain knowledge.

“ AIS emphasizes integrity, encouraging students to live with honesty, respect, and accountability. We build strong character by promoting compassion, resilience, and leadership through teamwork and community service initiatives. Our supportive environment that nurtures analytical thinking, adaptability, and confidence, gears students for success in both worlds. ”

Shazia Kashif
Branch Head
DHA Campus, Karachi

Key Features

The AIS library includes a vast collection of books, subscribed magazines and various other learning resources including audios & videos. AIS libraries are constantly adding new resources throughout the school year to keep collections dynamic. It offers a broad range of reading material. It supports both 'learning to read' and 'reading to learn' methodologies with informational and imaginative text and literature. Library resources, which cover both Islamic and academic subjects, are available in all the three languages taught in the school (i.e. English, Arabic and Urdu) and are inclusive of the Islamic faith, culture and civilisation. The school ensures that all library resources on Islam are accurate and authentic.

AIS library uses the Dewey Decimal Classification System to organise its collections. This system is internationally renowned and helps library users narrow their search to the desired title without trouble. Furthermore, the library works on an online automated cataloguing system which technically stores all library data including patron information. Users can take advantage of this system to search for their required resource.

Students are currently enjoying the following activities in the AIS library:

- » Reading program (one-to one guided reading)
- » Independent reading and silent reading
- » Group reading
- » Storytelling
- » Research based projects
- » Themed stories

**Academic Brilliance,
Islamic Values.**

English Reading Program

The one-to-one Guided Reading Program, exclusive to the School, is a supplementary plan designed to support all our students in their academic. The program has a unique method which involves a Reading Specialist, student and parent. The effectiveness of the program gives our students a kick start in their reading without the pressure of keeping up with rest of the class. This enables our students to develop their reading gradually in accordance with their abilities and accomplish targets successfully. This also motivates students further and naturally increases the love for reading.

In this program, the students visit their Reading teacher individually which encourages confidence and independence. Students get a chance to freely read to their teacher without worrying about anyone watching or listening to them. The teacher is then able to guide the student in areas of improvement during the one to-one session. This program develops a serious attitude towards reading, builds responsibility of taking care of a book and maintaining records. The program offers incentives to assure consistency in the process, a sense of achievement for the reader and competence in reading.

The Reading Program has shown a clear success since its establishment. It is thoroughly enjoyed by the students and much appreciated by parents. It is a program of AIS which is constantly growing to reach new goals of literacy and help students become proficient readers with high aims.

Igniting Curiosity
Enriching Lives

Urdu Reading Program

Starting from Senior Montessori, our school has introduced a tailored series of Urdu readers titled "AAO URDU PARHAIN," aimed at enhancing our students' proficiency in the Urdu language. This personalized reading program focuses not only on developing reading skills but also on improving comprehension, understanding, and analytical abilities.

Qualified Urdu Reading Specialists guide students through these readers, fostering a collaborative learning environment. Students then take these readers home for additional practice, reinforcing their learning and emphasizing the importance of mastering the Urdu language. This initiative ensures that our students gain a strong foundation in Urdu, equipping them with essential language skills for their academic journey.

Salient Features & Amenities

AIS provides the finest facilities and amenities and to its students and staff Alhamdulillah. The objective of offering these facilities is to provide a conducive learning environment for the students. We are constantly looking to improve and enhance the school's infrastructure in order to meet this goal.

The school is well equipped with the following up to date and essential facilities and features:

Classrooms

Well-lit, spacious and well-ventilated rooms provide a comfortable place congenial to the overall development of the students . Custom-made furniture is used in the Montessori classrooms and for EPL activities. Appropriate size of the furniture helps our students become more independent in performing their routine tasks. Interactive Smart boards Interactive smart board facility in the Montessori section helps students learn new concepts using the latest technology. With a higher level of engagement, students thrive through the rich learning experiences.

Backup Generator

The standby generator ensures smooth functioning of the school by providing uninterrupted supply of electricity.

Clean & Child-sized Washrooms

Child-sized toilets and wash sinks help our Montessori students maintain personal hygiene easily and independently. Attendants are always available to assist children where required and ensure they recite the Dua of entering and leaving the washroom. AIS is dedicated for providing the cleanest environment to its students.

Latest Security Systems

The campus boundary walls are secured by barbed wires. 24 hours intensive surveillance is ensured through CCTV cameras and on duty guards.

Sports Area

In order to ensure the development of leadership qualities, team work and motor skills, varying physical activities are conducted in the sports area.

Library

The library is well resourced with the latest books in English, Arabic and Urdu. It also holds a range of projectable books, flash cards, educational videos and other learning aids. Special attention is given to develop reading habits in students from an early age, so that our scholars keep on learning new things throughout their lives.

Qur'an Room*

A designated room is provided for reciting loudly into a microphone, with a focus on highlighting the attributes of each letter. Learners are guided through critical thinking via word analysis, enabling them to recite independently by applying the insights gained from their analysis. A designated room is provided for reciting loudly into a microphone, with a focus on highlighting the attributes of each letter. Learners are guided through critical thinking via word analysis, enabling them to recite independently by applying the insights gained from their analysis.

Trainings

We at AIS pay special attention to the training and development of our staff. Every year we design and conduct an Annual Training session for our staff to share with them the new discoveries and latest practices in the field of education. We keep the parents involved through multiple workshops conducted to guide and enable them to teach and train their children hence resonating the positive impact of the school at home.

Computer Lab

A state-of-the-art computer lab is established for Primary & Secondary Section students to learn the latest technology and familiarize themselves with the proper use of the internet and prepare them for programming in a supervised environment.

Bank*

The school has an on-site bank which facilitates the parents as well as staff in their routine financial transactions with the school.

Preschool

An ideal facility for infants and toddlers of AIS staff, the preschool program aims to give a head start to children. Here we offer a safe and nourishing environment where children are involved in fun games and activities, rhymes and stories, arts and crafts, Duas and Tarbiyah that help lay the proper foundations right from the beginning.

Future Plans

AIS plans to broaden the sphere of facilities available as we believe in service and progress. We plan to open up our branches across the country as well as abroad.

*Currently available at selected campuses.

Science Lab

AIS offers a fully equipped science lab which supplements our students' in-class learning. Research experiments are carried out in a safe, secure and supervised environment.

Sick-Bay

The school manages regular medical check-ups of the students in order to determine and monitor their growth and wellness. A sick-bay is rendered under the supervision of a qualified professional to deal with emergencies, if any.

Art Room

Valuing the importance of first hand experiences and active learning; vibrant Art rooms are available for the Montessori students. To enhance the creativity and critical thinking among our students, weekly art activities are planned and conducted in the Art room; providing a peaceful and colourful environment to the students to think and explore.

Competitions

Competitions inspire children to do their best by boosting their inquisitive nature, teaching them to think critically, make decisions and work in a team. AIS students are provided multiple platforms for in-house, national and international competitions in the fields of Writing, Art, Sport and Qiraat.

After-school Program

This facility is provided by the school to supervise students after school timings for a limited period, during which students are engaged in games and learning activities.

Arts & Literature

Festivals are also among the highlights of our school where we polish the natural talents of our students. During this festive event, students are involved in a myriad of contests including Article Writing, 2D & 3D Crafts and Engineering, Calligraphy, Graphic Designing, Videography, Nasheeds, Story Telling, Speeches, Poetry, Spelling contests and Entrepreneurship opportunities.

Educational Trips

To enrich educational experiences AIS, plans educational trips once a year. Through these trips children learn about nature, discipline and creativity. This is also a way to give them a chance to develop new hobbies and interests.

Grand Events

Our calendar is packed with exciting and captivating events throughout the academic year. These are a source of grooming and provide avenues of expressing the dynamic talents, personalities and competences of our students. We exert ourselves throughout the year for arranging these top-notch happenings, flared with out standing performances, exhibitions, competitions and expositions. The biggest events held by the school are AlHuda Islamic Exhibition (AIEx), Annual Day, Art & Literature Festival, Qira'at Competition and Annual Games.

Morning Assemblies

Interactive morning assemblies are also a key feature which helps a great deal in improving confidence and communication skills among students. We make sure that every student gets a chance to participate.

Segregated Classes

The school provides separate classes for boys and girls from grade IV onwards.

Salah Program

The Salah Program is a key component of our Tarbiyah curriculum, implemented from Grades I - X. This program enables students to learn, understand, and practice this essential act of worship, instilling the significance of Salah as a cornerstone of their faith.

Prayer Area

Students from the Primary and Secondary sections offer Zuhar Salah in congregation every day in the prayer area of the school. Wudu facilities are made available in every washroom on the premises.

Uniform Policy

AIS Uniform Policy transcends attire, reflecting Islamic values of modesty, discipline, and cleanliness. Aligned with Islamic principles, it encompasses grooming standards, proper hairstyles for boys, Hijabs for girls, and personal hygiene. Adhering to these guidelines instills unity, humility, and respect, fostering an environment that aligns with academic and Islamic principles.

Behaviour Counselling

We prioritize students' holistic development, recognizing the importance of nurturing not just academic excellence but also moral character and emotional well-being. Our counselling sessions provide students with one-on-one confidential attention and a compassionate space to express their feelings and concerns.

Behaviour counselling at AIS is grounded in the principles of Islam, supporting our students in navigating the complexities of childhood and adolescence and growing into responsible, compassionate individuals in accordance with Islamic values. The sessions help them make positive choices in line with Islamic teachings. Through personalised guidance and support, we empower our students to develop self-awareness, resilience, and empathy, fostering a harmonious and nurturing school community.

Career Counselling

Our Upper Secondary level offers a robust Career Counseling program, featuring visits from renowned university representatives who provide insights on academic disciplines, admissions, and scholarships. Through interactive sessions, students engage directly with these experts, gaining valuable knowledge about university life and career options. Our counseling team offers support to help students identify their strengths and interests, empowering them to make informed decisions for their future pathways.

“We inspire hope, ignite imagination, and instil a lifelong love for learning. Guided by the Qur'an and Sunnah, we prepare our students to be true Ambassadors of Islam. It is our vision that provides us with strength, clarity, and a profound sense of purpose. AIS is a platform giving us the opportunity not only to share the most powerful vision but also dedicate ourselves to making it a reality. ”
